# Naval Postgraduate School Wargaming Program

NAVAL  
POSTGRADUATE  
SCHOOL

## NPS Mobile Education Team

NPS has been conducting a Basic Analytic Wargaming course for organizations since 2011. The purpose of this course is twofold: First, it provides an organization to educate a cadre of its personnel on analytic wargaming. Second, through hands-on practical exercises, the students develop and demonstrate the foundation of a wargame sponsored by their own organization that can be further developed and conducted. Recent courses conducted include NAVAIR-China Lake and the Marine Corps Warfighting Lab, Quantico. The next MET will be conducted for U. S. Marine Corps Forces-Pacific in June 2018.

## The NPS Mobile Education Team – Building Strategic Partnerships

Indonesian Navy students

USMC CD&I OAD and I&L and Army CAA Students

Australian and New Zealand Defense Forces Students

Kazakhstan Army Students

## Sponsoring an NPS Resident Student Wargaming Team

The resident Wargaming Applications course is taught in the Fall and the Spring. Student teams design, develop, conduct and analyze a wargame for a Defense sponsor as they learn the craft of analytic wargaming. Sponsors mentor their student team and attend their wargame when it is conducted during wargaming week, usually the first weeks in December and June. Defense sponsors can apply to the NPS Naval Research Program to sponsor a program of warfare analysis research that includes student teams in both the Joint Campaign Analysis and the Wargaming Applications courses.

NPS Students and SPAWAR Personnel Conducted the Undersea Constellation Wargame
